- Road salt

Headlamp Protection from:

- Sun
- Fading
- Oxidation

Wheel Protection from:

- Brake dust staining

Chrome Protection from:

- Hard water spotting

Paintless Dent Repair

Paintless Dent Repair (PDR) is an innovative process developed by automotive manufacturing production teams to remove small dings and dents from painted sheet metal surfaces without harming the vehicle's factory finish. PDR works from the inside and therefore, does not require sanding, painting, or body fillers. In most cases, there is no evidence a dent ever existed.

- We will cover the cost to repair dents on any exterior painted sheet metal or body panel of your vehicle that are repairable through existing PDR techniques. (limitations apply)

Glass Treatment

The **SMART PACKAGE** treated glass is water repellent, giving you enhanced clarity in many adverse driving conditions.

Many Safety Benefits Of Smart Package Treated Glass

- Increases visibility in the rain, at night and during snow
- Increased driver reaction time by up to 34%
- Optically improves clarity of glass
- Reduces night and daytime glare
- Keeps glass clean and pristine
- Increases the overall safety of the driver and passengers

DLP is a national provider of protection products and has 1st Class customer & claims service.
